Thanks Mr. Duckworth. Personnel change can be a challenge. You and I know how that goes.

Yes, the plan is to move forward with removal of the AM peak hour restriction per the attached Traffic Control Report. But I had noticed that there is a block or two on south side of Melrose Ave, near Highland Ave with a PM peak hour restriction (ie) TANS 4pm - 6pm, Except Sat/Sun" so we will need to check on this with Mo's Office.

We had personnel changes on our end too. Jeff Jacobberger moved to another position with the City and that threw us off our game plan.

Mo's report said that we could remove peak hour restrictions for the entire length of Melrose Fairfax to Highland. Shouldn't that still be the plan?

I'll finish up on all of those on-street requests as quickly as possible.

Thanks Ray! Have a nice Holiday.

Hello Mr. Duckworth,

How have you been? Was this on one of your 2015 long "To Do" list for LADOT that Engineering Associate Hui was working on with you?? Per our RLATS (Request Login and Tracking System), those items have been reviewed and closed out back in May, 2015. Be advise that Hui has moved on to bigger things, still with LADOT, and a new Engineering Associate, Michael Ding, is now in charge of her area. I am copying him to oversee the removal and possible modification of the parking signs on this reach of Melrose Ave. Thanks.

Michael,

The AM peak hour restriction on both sides Melrose Ave b/w Fairfax Ave and Highland Ave has been rescinded per the attached TCR. I believe we would still retain the PM peak hour restriction on some portion of Melrose Ave (south side), just west of Highland Ave. Please check with District Office if this is the case. Please note that with the removal of the AM peak, the meter can now start at 8am, to be consistent with our normal 8am-8pm meter operation. Please RLATS and assign the Engineering Aide or one of the SPW to handle. Thank you.

Good Afternoon Ray...

I'm forwarding Sr. Traffic Engineer Mohammad H. Blorfroshan's Traffic Control Report from a year ago authorizing peak period parking restriction removal on both sides of Melrose between Fairfax and Highland. I believe he had left it to you to issue work orders but the work has never been completed. Can we schedule these signs to be removed as soon as possible?

(I am the Executive Director of the Melrose BID. Let me know as we can assist in any way.)

Thanks for you help getting this finished up.

Good Morning,

Attached is the Traffic Control Report (TCR) authorizing the removal of AM peak period parking restrictions on both sides of Melrose Av between Highland Av and Fairfax Av.

Ray, as we discussed in our meeting, your office can proceed with the necessary work orders to remove the peak period parking signs and modify the existing time-limit parking restrictions at this segment of Melrose Av.

Mohammad H. Blorfroshan

Senior Transportation Engineer
